

		Unit 1-	Unit 2	Unit 3
Year 10	Theme	Changing Economic world	Natural hazards	Urban issues and Challenges
	Key Knowledge	Measuring Development Development and the DTM Uneven development Reducing the Global Development Gap Economic Development in Economic Development in the UK	Natural Hazards- Effects and responses Tectonic hazards Tectonic plates Volcanoes and Earthquakes Tectonic hazards in contrasting wealth Living with Tectonic hazards Weather hazards Global atmospheric circulation Tropical storms- Characteristics Tropical storms – Typhoon Haiyan Tropical storms- Climate change and management UK weather hazards UK weather- Somerset Levels Climate Change Climate change- Evidence Climate change- Causes Managing Climate change	Urbanisation Urban Growth UK Cities Change in UK Cities Sustainable urban Living Traffic Management
Year 11	Theme	Physical Landscapes. Rivers and Coasts	Resource Management	
	Key knowledge	The UK physical Landscape Coastal Landscape in the UK Coastal Processes Coastal Landforms Identifying Coastal landforms Coastal Landscape- Dorset Coastal Management strategies Coastal Management- Dawlish River Landscapes in the UK	Global distribution of Resource Food in the UK Managing the UK's water Energy in the UK Energy: Energy supply and demand Increasing renewable energy supplies Increasing Non-renewable energy supplies	

		<p>The river valley Erosion, Transportation and Deposition River Landforms- Erosion, Meanders, Deposition Identifying river landforms River Landscapes- River Tee. River discharge and Flooding River management strategies Flood Management- River Tee.</p>	<p>Sustainable energy</p>	
	<p>Key content from National Curriculum/beyond</p>	<p>Weather & climate</p>
