

Championing the Way with skills

The WorldSkills UK Championing the Way project is an exciting way to bring careers and employability skills to life through experiential peer-led sessions for secondary and college students.

Each session is delivered by our Skills Champions – young professionals who have competed in skills competitions at national or international level. As peer role models they offer unique insight into routes into employment and tips for success to inspire students.

Each session can last up to two hours but is flexible to meet the needs of the school or college. It includes:

- An interactive workshop on skills used in careers like engineering, digital, construction and creative.
- Skills Champions share their stories on their journey into employment.
- Industry insight from a local or national employer.

Register to participate at worldskillsuk.org/championing or for more information, please contact skillschampions@worldskillsuk.org

WorldSkills UK is all about helping young people go further faster in their careers, gaining the skills that employers need most. We help young people from all backgrounds get the best start in work and life.
