13 March 2020

Dear Parents and Carers

This message includes information from the DfE to keep you updated on the government's response to COVID-19 (coronavirus). We are monitoring advice daily and taking all reasonable steps within that advice. As new information emerges today we will update you accordingly.

Plans are in place for teachers to be able to set work for your children should the school be either directed to close or forced to close as a result of instruction from Public Health England.

We have been and will continue to reassure our students. I fully understand that as new confirmed cases become known in our area it causes further questions about self-isolation and attendance in school. In order to support you as parents in making decisions there a link to guidance from the NHS below.

Further to this, it will become increasingly more likely that some of us may come into contact with others, who may test positive for COVID-19. The Department for Education have updated their advice as follows for anyone coming into known contact:

- any pupil, student or staff member in close face-to-face or touching contact including those undertaking small group work (within 2 metres of the case for more than 15 minutes)
- talking with or being coughed on for any length of time while the individual is symptomatic
- anyone who has cleaned up any bodily fluids of the individual
- close friendship groups
- any pupil, student or staff member living in the same household as a confirmed case, or equivalent setting such as boarding school dormitory or other student accommodation

Contacts are not considered cases and if they are well, they are very unlikely to have spread the infection to others, however:

- they will be asked to self-isolate at home for 14 days from the last time they had contact with the confirmed case and follow the [home isolation advice sheet](#)
- they will be actively followed up by the Health Protection Team
- if they develop any symptoms within their 14-day observation period they should call NHS 111 for assessment

- if they become unwell with cough, fever or shortness of breath they will be tested for COVID-19
- if they require emergency medical attention, call 999 and tell the call handler or ambulance control that the person has a history of potential contact with COVID-19
- if they are unwell at any time within their 14-day observation period and they test positive for COVID-19 they will become a confirmed case and will be treated for the infection

Thank you for your continued support in these challenging and unprecedented times.

Mrs Wendy Ainsworth
Principal

Information on our website as well as School Comms

Information will continue to be communicated via School Comms but, in addition to this we will also have all current advice on our website. There is a direct link on the red banner on the home page. The direct link to the page is <https://www.callingtoncc.net/news/?pid=7&nid=1&storyid=239>

NHS health information and advice

If you are concerned about contact with any individual impacted by a positive result, please follow the link: <https://111.nhs.uk/covid-19> The link is a self-risk assessment. It will ask you a series of yes or no questions and give advice as to what your next steps are.

NHS 111 Online – latest coronavirus (COVID-19) advice:

Find out what to do if:

- you think you have symptoms
- you might have been exposed to the virus when travelling

The importance of hygiene

Personal hygiene is the most important way we can tackle COVID-19. Please help us in sharing simple and effective hand hygiene messages.

1. Wash your hands more often than usual, for 20 seconds using soap and hot water, particularly after coughing, sneezing and blowing your nose, or after being in public areas where other people are doing so. Use hand sanitiser if that's all you have access to.

<https://www.nhs.uk/live-well/healthy-body/best-way-to-wash-your-hands>

2. To reduce the spread of germs when you cough or sneeze, cover your mouth and nose with a tissue, or your sleeve (not your hands) if you don't have a tissue, and throw the tissue away immediately. Then wash your hands or use a hand sanitising gel. May we ask that parents provide students with their own tissues to bring into school.

3. Clean and disinfect regularly touched objects and surfaces using your regular cleaning products to reduce the risk of passing the infection on to other people.

Department for Education coronavirus helpline

The Department for Education coronavirus helpline is available to answer questions about COVID-19 relating to education and children's social care. Staff, parents and young people can contact this helpline as follows:

Phone: 0800 046 8687

Email: DfE.coronavirushelpline@education.gov.uk

Opening hours: 8am to 6pm (Monday to Friday)
